COMPREHENSIVE CATALOGUE

ITALIAN STYLE FOR SAFETY

CEA Spa is a leading manufacturing company in the field of fire-fighting, prevention and protection.

The mission of the company is to assist and reinforce the culture of safety through a constant effort aimed at:

- Product and services, technical advancement and innovation
- Anticipating the changing needs in Standards and Norms
- Promoting in depth training courses for public and private sectors.

Consultancy,
software,
engineering.

CEA Company, founded by the Amadesi family in 1967, has an enviable record of engineering excellence and was one of the very first Italian Companies to be accredited with product approval by the Authorities.

Accurate control, intensive tests, objective data and painstaking care of all details have always been the Company's hallmark. This is one of the reasons why CEA products and services have always enjoyed a reputation of being a premium brand in terms of:

- Quality
- Product innovation, superior technology and engineering
- Product performance and reliability
- Meeting customer expectations.

Performing to ISO 9001:2008 Quality Assurance Standards is not just a Company slogan. In fact our guarantee is decreed by our Safety Network (around

50 associates in Italy) and the over 90.000 customers who rely daily on our superior technology and manufacturing excellence.

CEA has also founded ISQ, Quality and Safety Institute, which is the first Italian school for fire-fighting courses. In this context ISQ courses have become a must for all the sectors main players thanks to CEA propriety test-field, customized training courses, the skill of our engineers, and to practical simulations.

MOVING SAFETY

In 2004 CEA introduced a highly innovative mobile training unit for a hands on fire-fighting specialists training system. The CEA "truck" is the best example of our determination to be close to our Customers and guarantee all the necessary support in training, refresher courses. The truck is kitted with a teaching room and some laboratories where many safety and fire-fighting disposals are installed. It allows to organize itinerant courses program for engineers and maintenance workers, adding to theoretical classes some practical exercises supported by simulator instruments.

CEA

ESTINTORI

RACE TEAM

Since 1970, CEA Race Team is the most famous and efficient fire brigades in the Italian motor races, including Formula 1 World Championship.

Its presence in the main Italian autodromes and rally racecourses with more than 370 specialists and 50 vehicles to control and effectively coordinates emergency operations during motor competition has faced and solved a number of events during its over 30 years history.

All people involved in the CEA Race Team have been training by a constant and continuous courses program where emergency events are simulated.

SAFETY SOLUTIONS

In order to give a global safety solution package to our customers, CEA has been operating from years in the sector of Consultancy of Safety and Health for Workers. As part of this role, CEA also realizes and installs software schemes for fire-fighting equipments.

In 2005 CEA has developed its CEA Fire & Integrated solutions division, a team of well skilled engineers who are supporting our customers in their need for fire detection and suppression systems.

PRODUCTS

Portable fire extinguisher
1 Kg. of ABC powder
Fire class 3A-13B-C
C € 0036 PD1ES

Portable fire extinguisher
2 Kgs. of ABC powder
Fire class 13A-113B-C
C € 0036 PD2ES

Portable fire extinguisher
6 Kgs. of ABC powder
Fire class 34A-233B-C
C € 0036 PD6ES

Portable fire extinguisher
6 Kgs. of ABC powder
Fire class 55A-233B-C
C € 0036 PD6MQ

Portable fire extinguisher
9 Kgs. of ABC powder
Fire class 55A-233B-C
C € 0036 PD9ES

Portable fire extinguisher
12 Kgs. of ABC powder
Fire class 55A-233B-C
C € 0036 PD12MQ

Portable fire extinguisher
12 Kgs. of ABC powder with internal bottle
Fire class 55A-233B-C
C € 1115 PBI2MQ

Portable fire extinguisher
2 Kgs carbon dioxide base
Fire class 34B
C € 1115 H2ES

PRODUCTS

Portable fire extinguisher
5 Kgs carbon dioxide base
Fire class 113B
C € 1115 H5ES

Wheeled fire extinguisher
30 Kgs. of ABC powder
Fire class A-B1-C
C € 1115 PD30

Wheeled fire extinguisher
50 Kgs. of ABC powder
Fire class A-B1-C
C € 1115 PD50

Wheeled fire extinguisher with external bottle
50 Kgs. of ABC powder
Fire class A-B1-C
C € 1115 PD50BE

Wheeled fire extinguisher
100 Kgs. of ABC powder
Fire class A-B1-C
C € 1115 PS100

Wheeled fire extinguisher
27 Kgs. carbon dioxide base
Fire class B10-C
